*Order of the day is materialistic life i.e. every aspect in the life of a human being is physical calculation. In process of the calculations people are fading themselves, ofcourse, their external life may look rosy but inner world represent the true picture. It is a common phenomena the people try to hide their inner picture in which they get temporary but not permanent success. Inner world of a human being will reflect in his quest for knowledge, love & affection towards natural things, kind & generosity for fellow beings. It is really a miraculous twist in the creation of Almighty as the human being is created with two worlds but given key of only inner world and kept with him the control of external world. And still there is a ray of favour, as preached and proved in their lives by the ascended souls like lord Krishna, Jesus Christ, Bhagavan Buddha, yesterday's Mahatma Gandhi and so on, that for a human being glowing inner world is root for his external world on this earth planet. So it is wise for all the human beings to realize and be afresh to keep pink of their inner world with **reflecting** actions and expressions thereby lead a complete and holistic life. For that no need to go Himalayas or elsewhere but turn around and find such avenues which must include our AVG also.*

Truth, Purity and Unselfishness – wherever these are present, there is no power below or above the sun to crush the possessor thereof. Equipped with these, one individual is able to face the whole universe in opposition.
